1. *General Index :*

The "All Items" Index figure, calculated from prices collected in the second week of January is 111.5, an increase of 2.3 points above the level reached in the previous month.

2. *Section Indices :*

The Food Index rose from 118.6 to 122.9 during the current month due to large increases in the prices of Flour and Bread. Slight increases (in order of size of effect on the Index) were also recorded in the prices of Fresh Beef, Split Peas, Salted Fish, Ground Provisions, Tea, and Fresh Pork.

Decreases in the prices of Local Rice, English Potatoes, Fresh Fish, Green Vegetables, and Poultry served partially to offset the effect of the increases in the first-mentioned items.

Building materials showed a rise from 99.7 to 102.1 points due principally to increases in the prices of Local Lumber and Hollow Clay Tiles.

Services registered an increase of 1.5 points as a result of increases in School Fees and Cinema Tickets.

There were no significant changes in the other section indices compared with the figures for December.

(1) Full details of this Index are published in Statistical Studies and Papers No. 1 on sale by the Government Printer, Trinidad.—Price 24 cents.

5. If any person refuses to deliver up any article which a member of the Police Force requires to be delivered up for seizure under the provisions set out in paragraph 3 or paragraph 4 above, or obstructs any member of the Police Force when acting in pursuance of any of the said provisions, he shall be guilty of an offence and shall be liable to a fine of two hundred and forty dollars or to imprisonment for six months with hard labour or to both such fine and such imprisonment.

NOTICE *RE* INCOME TAX RETURNS

THE attention of the public is drawn to the provisions of section 36 of the Income Tax Ordinance, Ch. 33. No. 1, by virtue of which every person liable to tax is required to deliver to the Commissioner of Income Tax a true and correct return of the whole of his income from every source whatsoever for the year immediately preceding the year of assessment. It should be noted that this is a duty which should be fulfilled by each person liable to tax without being called upon by the Commissioner of Income Tax to do so, and it is the responsibility of each person to obtain a Form for the purpose. Forms are being supplied to employers for issue to employees; employees may therefore make application for these forms to their employers. Other taxpayers, professional men and self-employed persons may obtain forms from the Inland Revenue Department at 12, Richmond Street, Port-of-Spain, from the Sub-Treasury in San Fernando or from the Wardens' Offices throughout the Colony.

Persons who are not liable to tax must make a return when called upon to do so. In cases where the income of a person exceeds $1,200, the Commissioner of Income Tax requests that a return be made. A Form 7 is being issued to all employees, and this may be used to report particulars in cases where there is no liability.

The return of income (Form 1 or Form 7) is required to be made to the Commissioners of Income Tax not later than 31st March next, but the Commissioners point out that it would greatly facilitate the work of the Department if returns are received earlier.

Commissioner of Income Tax

1. *General Index :*
The "All Items" Index figure, calculated from prices collected in the second week of February, is 112.1, an increase of 0.6 figure above the level reached in the previous month.

2. *Section Indices :*
The Food Index rose from 122.9 to 124.0 due to marked increases (in order of size of effect on the Index) in the prices of fresh fruit, fresh fish, flour, corned and frozen beef. Moderate increases were also recorded in the prices of powdered milk, tea, poultry and melongenes. The high price of tomatoes which were introduced into the Index for the first time for this season also had a significant effect on the Food Index.

Decreases in the prices of local rice, fresh pork, fresh beef, English potatoes, garlic, split-peas, condensed milk and green peas, served partially to offset the increases in the first mentioned items.

Drink and tobacco fell by 0.4 point due to decreases at certain centres in the price of rum.

Fuel and light rose by 0.8 point mainly due to further increases in the price of charcoal.

Clothing declined 0.6 point chiefly as a result of reductions on Piece Goods in New Year sales.

Household supplies rose by 0.7 point due to increases in the prices of chairs and mattresses.

The other Section Indices revealed no changes compared with the January figures.

1. *General Index:*

The "All Items" Index figure calculated from prices collected in the second week of March is 113.5, an increase of 1.4 above the level reached in the previous month.

2. *Section Indices :*

The Food Index rose by 2.7 points largely as a result of seasonal increases in the price of fresh fish. There were substantial increases (in order of size of effect on the Index) in the prices of local rice (for which demand was increased due to the shortage of flour), frozen beef, fresh pork (feet and heads), and tea. These increases were partially offset by appreciable falls in the prices of English potatoes, most kinds of ground provisions, onions, corned-beef and garlic.

The Clothing Index rose by 0.5 point as a consequence of increases in the prices of piece goods.

Household supplies declined 0.9 point. All the items in this group showed slight decreases.

Further increases in the price of cinema tickets were responsible for the rise in the Services section from 107.0 to 108.6.

The other Section Indices revealed no significant changes compared with the figures for February.

1. *General Index*

The "All Items" Index figure calculated from prices collected in the second week of April is 112.6, a decrease of 0.9 below the level reached in the previous month.

2. *Section Indices*

The Food Index, which stood at 126.7 points in the month of March, dropped to 124.7 points in the month of April owing to decreases (in order of size of effect on the Index) in the prices of fresh fish, hops bread, green vegetables, condensed milk and frozen beef.

Increases recorded in the prices of fresh fruit, ground provisions, local rice, fresh beef, salted beef and fresh pork, served partially to offset the decreases in the first-mentioned items.

The Clothing Index declined by 0.5 point owing to Easter Clearance Sales at many centres.

Building Materials rose by 0.8 point as a result of increases in the price of galvanized iron, wall board and local lumber.

Increases in the price of tickets at a few more cinemas were responsible for a rise in the Services Index from 108.6 to 110.5.

The other Section Indices revealed no significant changes compared with the figures for March, 1955.

(1) Full details of this Index are published in Statistical Studies and Papers No. 1 on sale by the Government Printer, Trinidad.—Price 24 cents.

1. *General Index*

The "All Items" Index figure calculated from prices collected in the second week of May, is 112.5, a decrease of 0.1 point below the level reached in the previous month.

2. *Section Indices*

The Food Index fell by 0.2 point, largely as a result of decreases (in order of size of effect on the Index) in the prices of fresh fish, ripe figs and grapefruit.

Increases recorded in the prices of green vegetables (especially tomatoes), chives, frozen beef, condensed milk, garlic, salted beef and local rice served partially to offset the decreases in the first-mentioned items.

Building materials declined by 0.5 point, chiefly on account of decreases in the price of galvanized iron.

The other Section Indices showed no significant change when compared with the figures for April, 1955.

(1) Full details of this Index are published in Statistical Studies and Papers No. 1, on sale by the Government Printer, Trinidad.—Price 24 cents.

Inspections

Owners of Public Service vehicles (including Motor Omnibuses and Hiring Cars), Goods Vehicles, Rented Cars, Tractors and Trailers are hereby notified that the annual inspection of these vehicles will commence as follows:—

"Fleet Owners", i.e. persons or companies owning more than six vehicles may have their vehicles inspected at any time commencing from the 1st July, 1955, at Port-of-Spain and San Fernando. They should make arrangements with the Inspector of Motor Vehicles at Port-of-Spain and San Fernando for such inspections to take place from then onwards.

Vehicles owned by persons who are not Fleet Owners will have their vehicles inspected by the Inspector of Motor Vehicles as from the 1st September, 1955, onwards at all inspection centres except Tobago.

Inspection of motor vehicles at Tobago will commence on the 1st October, 1955.

Vehicles belonging to the Biche, Rio Claro, Toco, Matura, Matelot, Blanchisseuse and Sangre Grande districts, will be inspected at Sangre Grande on alternate Wednesdays beginning from 31st August, 1955, onwards or on any other days as the Licensing Authority may approve.

This measure is for the convenience of the public and to avoid congestion in 1956. Owners of such vehicles are advised to pay inspection fees from now onwards in San Fernando and in Port-of-Spain and then to approach the Inspector of Motor Vehicles in the respective areas with a view to making appointments for the inspection of their vehicles. One inspection receipt will be issued for each vehicle and must be produced at each inspection until the vehicle complies with the provision of the Motor Vehicles and Road Traffic Ordinance, Ch. 16. No. 3, and the 1944 Motor Vehicles and Road Traffic Regulations.

Vehicles must be presented in a thoroughly clean condition, and must have been overhauled. The body and wings, axle, chassis, frame, steering arms, springs, track rod, brake connections, shackles, bolts, nuts, split pins, engine, engine shield and case, clutch, gear box, magneto or coil, air filter, carburettor and all working parts must be cleaned down in order to admit of proper examination. Dust covers, if used, must be removed before presentation in order to admit of an examination being made in full. All split pins, &c., must be clearly exposed, also chassis and engine numbers. Drivers' seats must be securely fastened so that the driver can have proper control of the vehicle. Musical horns and whistles are strictly prohibited. Left-hand drive goods vehicles and motor omnibuses must be fitted with traffic indicators, and all left-hand drive vehicles shall have a notice affixed in a conspicuous position in the rear of the vehicle, bearing the words and letters of not less than 2 inches in height "Left Hand Drive". The registered identification marks on all vehicles must conform to Regulation 9, also maintained in such a condition as to render each letter or figure readily distinguishable. The attention of owners of motor omnibuses and goods vehicles is specially directed to Regulation (25) (11) (*f*) regarding the position of front lamps. Spot lights or lights other than those provided for in the Regulations will not be allowed except with the written approval of the Licensing Authority.

Vehicles which have been found by an Inspector to have defects must not be used on the roads until they have been issued with a certificate certifying that the vehicles may be duly licensed.

Owners of all motor vehicles are warned that section 16 of the Motor Vehicles and Road Traffic Ordinance will be strictly enforced.

1 *General Index*

The "All Items" Index figure calculated from prices collected in the second week of June, is 113.5, an increase of 1.0 point above the level reached in the previous month.

2. *Section Indices*

The Food Index rose by 2.2 points, chiefly as a result of large increases in the price of English potatoes. Appreciable increases (in order of size of effect on the Index) were also recorded in the prices of green vegetables, ground provisions and fresh fish. These increases were partially offset by decreases in the prices of frozen beef, ripe figs, salted beef, salted fish and condensed milk.

The Clothing Index fell from 90.6 to 90.0, largely as a result of decreases in certain lines of ladies' and children's dress materials.

Household Supplies rose by 0.5 point due to increases in the prices of laundry soap, tumblers and towels.

Drugs and Toilet Accessories declined by 1.0 point on account of substantial decreases in the prices of school books and ink at certain centres.

The other Section Indices revealed no significant changes when compared with the figures for May, 1955.

(1) Full details of this Index are published in Statistical Studies and Papers No. 1, on sale by the Government Printer, Trinidad.—Price 24 cents.

MOTOR OMNIBUS CONCESSION—PORT-OF-SPAIN AREA

Applications are invited for the grant of a concession to operate motor omnibuses in the area in which transport services are at present being operated by the Port-of-Spain Corporation Electricity Board.

It is expected that the date on which operations under the concession will be required to be commenced will be 1st September, 1955; but this is subject to the making of an Order by the Governor in Council authorising the Board to discontinue its transport services from that date.

Forms and particulars may be obtained on written or personal application to the Licensing Authority, Wrightson Road, Port-of-Spain.

Completed forms in a sealed envelope marked "Application for Omnibus Concession" accompanied by a deposit of $25.00 should be lodged with the Licensing Authority, Wrightson Road, on or before 12 noon on the 30th July, 1955.

The grant of a concession to operate motor omnibuses is governed by section 79 of the Motor Vehicles and Road Traffic Ordinance.

· *General Index*

The "All Items" Index figure calculated from prices collected in the second week of July is 113.2, a decrease of .3 point below the level reached in the previous month.

· *Section Indices*

The Food Index fell from 126.7 to 126.0 largely as a result of decreases (in order of size of effect on the Index) in he prices of fresh fish, chives, spinach, fresh pork, onions, salted fish and garlic. Increases registered in the prices of ocal rice, ground provisions, corned beef, ripe figs and fresh eggs served to offset partially the decline in the Food Index.

Drugs, toilet accessories and miscellaneous goods rose by 1.0 point due mainly to appreciable increases in the prices f school books, ink and toothpaste at certain centres.

The other Section Indices revealed little or no change when compared with the June figures.

(1) Full details of this Index are published in Statistical Studies and Papers No. 1, on sale by the Government Printer, 'rinidad.—Price 24 cents.

1. *General Index*

The "All Items" Index figure calculated from prices collected during the second week of August is 114.6, an increase of 1.4 points above the figure reached in the previous month.

2. *Section Indices*

The Food Index rose from 126.0 to 128.6 due to substantial increases (in order of effect on the Index) in the prices of ground provisions, local rice, and fresh fruits; moderate price increases were also recorded for corned beef, condensed milk, English potatoes, garlic and green vegetables. Slight decreases in the prices of fresh pork, split peas, onions and salted beef served to offset partially the increases of the first mentioned items.

Living Accommodation rose by 0.5 point as a result of increases revealed by the half-yearly Rental Survey conducted throughout the Colony.

The other Section Indices showed little or no change when compared with the figures of the previous month.

(1) Full details of this Index are published in Statistical Studies and Papers No. 1, on sale by the Government Printer, Trinidad.—Price 24 cents.

NOTICE TO SAWMILL OWNERS

ON 8th June, 1951, in a Press release, Government enunciated the sawmill policy which is now in force. A main item of this policy is discouragement of the use of wasteful circular saws and the encouragement of more economical bandsaws for the conversion of logs to sawn timber. This policy has been very successful and the number of bandmills licensed to operate has increased from 8 in 1951 to 21 in 1955.

No step has yet been taken to reduce the number of circular saws in operation. Consequently the total number of sawbenches licensed to operate has risen from 78 to 89. Now the time has come when the band sawmill has established itself and it is desirable to take a further step in curtailing the number of wasteful circular sawmills; otherwise Government may be unable to keep all the sawmills supplied with logs.

Government has decided therefore that as from the date of issue of this notice

(*a*) an owner of a circular sawmill only who wishes to sell it may do so but such a mill, if sold, will not be licensed again.

(*b*) the owner of a licensed band sawmill who owns also a licensed circular sawmill may sell the circular sawmill and the new owner will be granted a licence to operate it on an approved site.

(*c*) except in special cases approved by the Conservator of Forests, the transfer of a licensed circular sawmill from one site to another without change of ownership will be refused.

This policy will be enforced through the powers granted to the Conservator of Forests under the Sawmills Ordinance, Ch. 24. No. 3, section 3 (5) which reads:—

"A sawmill licence shall not be transferable."

and section 4 (4) which reads:—

"On due application made the Conservator may grant a licence subject to such terms and conditions as he may think fit, or he may refuse to grant a licence, if he shall deem such refusal to be necessary or desirable in the interests of the public . . ."

NOTICE

THE communication below is published for public information:—

"THE ROYAL SANITARY INSTITUTE

Founded 1876

TO PROMOTE THE HEALTH OF THE PEOPLE

90, Buckingham Palace Road,

London, S.W.1

THE TITLE OF THE INSTITUTE

The Institute was founded, in 1876, for the purpose of promoting the health of the people. At that time the meaning of "sanitary" was "pertaining to health". Today it is virtually a misnomer as the word "sanitary" is, in common usage, misinterpreted and no longer associated with "health" in its true sense.

The scope and work of the Institute are not confined to any particular branch of health, but include all aspects of health such as personal hygiene, public health, preventive medicine, social medicine, mental health, veterinary hygiene, architecture and building, town planning, surveying, estate management, public health engineering, sanitary science, tropical hygiene, occupational health, industrial hygiene, smoke prevention, health education, maternal and child health, nursing, midwifery, health visiting, food and nutrition.

The title of the Institute is today descriptive of only a fraction of the above activities. The Council have, therefore given long and careful consideration to the title and have concluded that it would be desirable if the original meaning of "sanitary" were restored by translating it into "health", a term which already appears in the armorial bearings as *salus generis humani*. Having regard to the varied professions or occupations from which members are drawn, to the varied branches of health in which the Institute functions, to the titles of other institutions and to the stringent requirements of the Home Office and the Board of Trade as to the wording of the title, the Council unanimously resolved that the best name for the Institute would be "The Royal Society for the Promotion of Health". An application to the Board of Trade and the Home Office was accordingly made by the President, The Rt. Hon. Lord Percy of Newcastle, seeking the assent of Her Majesty the Queen.

The Council have every confidence that this important measure will meet modern circumstances, give added prestige to membership and maintain the Institute in the forefront of successful endeavour. The Council desire to emphasize that:—

(1) for the preservation of goodwill and identity the present title would be printed beneath the new title for a sufficient period to ensure such preservation;

(2) present Fellows, Members, Associates and Affiliates would, in accordance with customary procedure, retain the right to continue to use the present designations (F.R.San.I., M.R.San.I., A.R.San.I., Affil.R.San.I.) if they so wished, or to use the new designations (F.R.S.H., M.R.S.H., A.R.S.H., Affil.R.S.H.).

The Council have the honour to announce that Her Majesty the Queen, Patron of the Institute, has been graciously pleased to Command that the Institute be known henceforth as "The Royal Society for the Promotion of Health".

BRITISH CARIBBEAN COINS

UNTIL now the Eastern Group of the British Caribbean Territories has used United Kingdom coins, except that Jamaica has used pennies, half-pennies and farthings of its own distinctive designs, and British Guiana its own four-penny pieces. Often, however, the United Kingdom denominations have been expressed, in local usage, in cents, one cent being equivalent to one half-penny.

The Territories have agreed to adopt a unified system of decimal currency based on the local dollar, with the cent as the one-hundredth part. The coinage, consisting of 50 cents, 25 cents, 10 cents, 5 cents, 2 cents, 1 cent and ½-cent denominations, has been struck by the Royal Mint and will shortly be issued in the Territories, with the exception of Jamaica.

The highest three denominations have been struck in cupro-nickel, in the same metal as the United Kingdom half-crown, &c.; the 5 cents in nickel-brass, in the same metal as the United Kingdom twelve-sided three-penny piece; and the lowest three denominations in bronze, in the same metal as the United Kingdom penny, &c.

All the coins bear on one side the crowned effigy of Her Majesty as it appears on the coins of other Dependent Territories.

The designs on the other side of the coins are:—

50 cents	Combined Arms of the Territories
25 cents, 10 cents, 5 cents	Drake's *Golden Hind*
2 cents, 1 cent	Crossed Branches of Palm

The ½-cent design consists of the inscription "BRITISH CARIBBEAN TERRITORIES—EASTERN GROUP", the denomination and the date, all of which are also incorporated in the designs of the other denominations.

Mr. Cecil Thomas, O.B.E., F.R.B.S., modelled the effigy of Her Majesty in 1952. He was born in 1885 and is a Past Master of the Art Workers Guild. His previous work includes recumbent effigies and portrait busts in Canterbury Cathedral and many other places. He has designed and engraved many seals. His best known medal is the Coronation Medal of Her Majesty. At the beginning of the reign he also modelled the reverse designs of the United Kingdom five shillings, half-crown, two shillings and six-penny pieces.

Mr. T. H. Paget, O.B.E., designed and modelled all the reverse sides of the new coinage. He is 62 years old and teaches at the Central School of Arts and Crafts in London. He has done much work for the Royal Mint including the uncrowned effigy of King George VI for coinage and the representation of the *Golden Hind* on the United Kingdom half-penny. Recently he has designed coinages for Iraq, Bolivia and Uruguay.

The first issue of British Caribbean coins will be made on 15th November, 1955, in the following denominations: 10 cents, 5 cents, 2 cents, one cent, half-cent. *United Kingdom coins will however continue to be legal tender until demonetized.* Photographs of the new coins will be on display in Banks and Wardens' Offices.

1. *General Index*

The "All Items" Index figure calculated from prices collected during the second week of October is 114.1, a decrease of 0.5 point below the level reached in September.

2. *Section Indices*

The Food Index fell from 128.7 to 127.7 due to decreases in the prices of Fresh Fruit, Fresh Pork, Fresh Fish, Ground Provisions, Tea, Onions, and Local Rice. The fall in this Section was partially offset by price increases recorded for Green Vegetables, Condensed Milk, Cocoa Powder and Fresh Eggs.

Building Materials which stood at 103.4 last month, rose by 0.5 point as a result of increased prices of Cement, Fittings and Plumbing equipment.

The rise of 0.5 point under Services was entirely due to increases in Cinema prices.

The other Section Indices showed little or no change compared with the figures for September.

(1) Full details of this Index are published in Statistical Studies and Papers No. 1, on sale by the Government Printer, Trinidad.—Price 24 cents.

TERMS AND CONDITIONS OF CONTRACTS IN REGARD TO GOVERNMENT SUPPLIES AND SERVICES

1. The Contractor shall supply, on an order on the prescribed invoice form (a specimen of which is annexed) signed by the Head of the Department requiring the supply, or by any other person who may be authorized by him, such articles of the descriptions mentioned in the Schedule annexed hereto as may be specified in the order. The order shall be in duplicate marked "A" and "B". Form of supply

The Contractor will arrange for the *immediate* delivery of the goods in accordance with the delivery instructions on the order. A delivery note, in duplicate, giving quantities and quoting Form A Number is to be sent out with each delivery to the Consignee at the place of delivery specified. The Consignee will receipt one copy and return it to the Contractor. Upon receipt of the signed delivery note, the Contractor will attach it to the relevant Form A. In both cases the articles shall be subject to the acceptance of the Head of Department from which the order was issued. Quality of articles

CONTROL OF IMPORTS AND EXPORTS

END OF RICE RATIONING

Notice No. 19 *of* 1955

PUBLIC attention is directed to Government Notices Nos. 163 and 164 published in the *Royal Gazette* dated 27th October, 1955. The effect of Notice No. 163 will be that as from the 28th October, 1955 the retail selling price of imported rice will be 13½c. and 14c. per lb. instead of 13 and 13½c. as at present. The effect of Notice No. 164 will be that as from 1st November, 1955 consumers will no longer require their ration cards to obtain imported rice from retailers.

Effective immediately wholesalers will be able to supply their *registered licensed* retailers any quantity of imported rice without restriction. Retailers will be able as from 1st November to sell any quantity of imported rice to any consumer without restriction.

Adequate stocks of rice are available to meet the requirements of every consumer in the Colony and continued supplies are assured for taking care of all future requirements. The public is therefore requested to co-operate in ensuring that the transition from a condition of rationing to free trade will be effected smoothly. Consumers are requested not to buy more than they require for their current needs and not to rush retail premises unduly. It is quite possible that for one reason or another a retailer may not have supplies available immediately—in that event consumers should not panic. It is also quite possible that retailers may attempt to withhold supplies from consumers or to charge them prices higher than the fixed prices of 13½c. and 14c. In such an eventuality, a report should be made to the nearest Police Station. The Police have been requested to take prompt action on any such report made on or after 1st November. If it is found on investigation that a retailer in fact has no stocks, consumers should not panic because supplies are available and it will be possible for the retailer to obtain supplies in a very short time from his wholesaler.

CONTROL OF IMPORTS AND EXPORTS

IMPORTS IN 1956 UNDER 1955 LICENCES

Notice No. 21 of 1955

IMPORTERS are hereby notified that no further licences will be issued for the importation of goods for 1955, except in special circumstances.

All goods subject to import quotas which arrive in the Colony after 31st December, 1955, or which are paid for after that date, will count against quotas for 1956, notwithstanding the fact that such goods may have been ordered against 1955 quotas. Importers are therefore advised to reserve a sufficient portion of their 1956 quotas to cover expected arrivals in 1956 under 1955 licences.

In order to ensure continuity of supplies, steps are being taken to issue import quotas for 1956 immediately, and importers may submit applications for importation in 1956.

These directions also apply to quotas granted for the importation of luxury items for the tourist trade.

With respect to allocations under the Token Import Scheme, the issue of licences against 1955 quotas will be continued up to the 31st December, 1955, but these licences will be valid for arrival of goods in the Colony not later than 31st March, 1956.

1. *General Index*

The "All Items" Index figure calculated from prices collected during the second week of November is 113.0, a fall of 1.1 points below the level reached in October.

2. *Section Indices*

The Food Index declined 2.2 points chiefly as a result of large decreases in the price of local rice for which there was a significant drop in demand following the de-rationing of imported rice. There were substantial decreases in the prices of local foodstuffs which may be used in the place of rice. Decreases (in order of size of effect in the Index) occurred in the average prices of ground provisions, English potatoes, green vegetables and fresh fruit. The downward effect of these changes were partially offset by increases in the prices of fresh fish, fresh pork, imported rice, salted beef, condensed milk, corned beef, poultry and table butter.

Building Materials rose by 0.6 point in consequence of increases in the average prices of local lumber, fittings and plumbing equipment.

Household Supplies moved up by 0.5 point due almost entirely to increases in the average price of laundry soap.

The other Section Indices revealed no significant changes when compared with the figures for October.

(1) Full details of this Index are published in Statistical Studies and Papers No. 1, on sale by the Government Printer, Trinidad.—Price 24 cents.

2198—*Continued*

1. *General Index*

The "All Items" Index figure calculated from prices collected during the second week of December is 113.8, an increase of 0.8 point above the level attained in November.

2. *Section Indices*

The Food Index moved up from 125.5 to 126.5 due to sharp increases in the prices of green vegetables and English potatoes. Moderate increases (in order of size of effect on the Index) were also recorded in the prices of fresh pork, frozen beef and ground provisions. These increases were partially offset by decreases in the prices of local rice, fresh fish, fresh fruit and garlic.

Fuel and light rose by 2.1 points due entirely to increases in the price of charcoal.

Clothing advanced 1.4 points mainly as a result of increases in the price of shirts, certain lines of ladies dress material, material for gents' suitings, shoe repairs and tailoring.

Household Supplies and Durable Goods declined by 0.8 point as decreases in the prices of chairs, insecticidal spray, lace curtain and marquisette, dinner and soup plates and laundry soap outweighed increases in the prices of starch, felt floor covering and tumblers.

Drugs, toilet accessories and Miscellaneous Goods rose by 0.8 point as most items in this Section reflected small increases.
